Dear Recruiter,

Since I was young, I have been inspired and drive by computers and technology. I found the computer technology is striking fantastic, it keeps this world spinning in new direction. I love cutting edge technology, I love how the grain of sand can create silicon, Logic gate, circuit board PCB, and become the chip that power the computer. I amazed how everything come together and create innovation such a computer.

I am writing this because I want to get an opportunity to work with cutting edge technology companies. Be able to work on fast-paced technology industrial has been my long-time goal and my passion, I want to be part of next innovation, something that benefit humanity in the future, something that elevate our lives into next stage. I believe that I am capable of Computer engineering and Software works. With my abilities on various programing and circuit analysis. I do believe I belong here in the industry. Although I still do lack of professional experience, I expected to gain while I am working with you every profession engineers. While I'm attending community college and university, I did get an opportunity to work in various fields such as small coffee business (Volcano Splash Drinks) as barista and cashier, POS card payment system (Amber systems technologies) as Front-End Software developer and Unix design, and IT technical at Mountain Cascade, Inc. I gain so much knowledge working in this field, there were many things overwhelming me in different way, but it makes become better person, better worker under any pressure and circumstances.

Thank you for your time to read my paper. I appreciate your consideration of my application. I would like to meet and discuss this further in person. My phone number is (209)-407-9730 and my email is nutthawat.panyangnoi@sjsu.edu, nttw648@gmail.com or Panyangnoi.nutthawat@gmail.com

If there is any question about my resume, please do not hesitate to contact me. Thank you for the opportunity, I look forward to hearing from you.

Sincerely,

Nutthawat Panyangnoi
